1.1. Mayor's Report

UThukela District Municipality had taken advantage of the 2019/2020 special adjustments process in accordance to the prescriptions of the MFMA and circular 99 of National Treasury.

The municipality has resolved to review that special adjustment budget, in order to make up for the shortfall on approved budget and to attend to those areas where we underspent or overspent. further to that is was to develop and approve a tangible financial recovery plan over the coming years.

As we can all recall the original budget was rendered unfunded by treasury and our cash position has not improved. Our cash position has been further diminished by the non-approval of the prior years' roll-over of R3.5million of the RBIG. The current contractual agreement with uMngenil Water is also weighing in quite heavily on our cash flow. These material adjustments have left us in a worse off position.

The municipality is currently reporting under an unfunded budget of R3 million to address the COVID- 19 national disaster, where national treasury has only allocated R745 million to council as a disaster relief grant. The municipality has submitted various funding applications and business plans to donor departments, we are awaiting positive outcomes.

I must report though that we still do have room for improvement the following areas:

- 1. Staff overtime
- 2. Security
- 3. Revenue collection especially interest on overdue debts, further impacted by economic suppression of COVID-19
- 4. Controlling of day to day expenditure in general.
- 5. Settling of long term outstanding debt.

Senior managers are actively looking into possible measures of reducing overtime and improving our current collection rate, in order to improve our cash flow situation. It is anticipated that our cash collection will improve before the end of the next financial year.

Furthermore, having noted our current cash position the municipality has reduced all general expenditure to a bare minimum. Thus shifting our focus and limited resources from typical work streams to our core function," the provision of water and sanitation". However, these cost savings have been diminished by the failure to improve in the areas already mentioned above.

Once more, I take this opportunity to thank this Municipal Council for the continuous support they have given me during this term of the year. With those few words.

I now present to you the special adjustments budget for the 2019/20 financial year.

This special adjustment was prepared in compliance with S72 of the MFMA Section 72 indicates that the following information must be provided:

- the monthly statements referred to in section 71 for the first half of the financial year;
- the municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- the past year's annual report, and progress on resolving problems identified in the annual report

As part of the review the accounting officer must:

- make recommendations as to whether an adjustment budget is necessary and
- recommend revised projections for revenue and expenditure to the extent that this may be necessary

Background

as per recommendations of MFMA budget circular 99 the municipality must adopt an adjustment budget no later than the 15th of June 2020 to address unauthorised expenditure related to the COVID-19 national disaster, this includes amount spent on addressing the disaster as well as any related reprioritisation. The municipality has also used this opportunity to address areas of unauthorised expenditure incurred during the course of the financial year.

Consideration of section 18 of MFMA was made, which states that:

"An annual budget may only be funded from:

a) Realistic anticipated revenues to be collected;

b) Cash backed accumulated funds from previous year's surpluses not committed for other purposes; and

c) borrowed funds, but only for the capital budget referred to in section17(2)

(2) Revenue projections in the budget must be realistic, taking into account:

a) Projected revenue for the current year based on collection levels to date; and

The amount anticipated to be collected from service charges has also been reviewed in light of amounts collected as at the end of the first quarter. A collection rate of 50% has been applied to the projected water and sanitation sales as per the unaudited as per our average collection rate. We are very optimistic that at year end this collection will have improved owing to the appointment of debt collectors and the review of tariffs.

The total adjustment to payments is R30.1million, which includes the adjustments on B4 of as well as the R745 thousand disaster relief grant. At year end we anticipate a balance of R21.8 million. We note the cash position will improve in the outer years of MTREF.
