### **1.1 MAYORS REPORT**

#### **SPEECH BY THE MAYOR OF UTHUKELA DISTRICT MUNICIPALITY PRESENTED TO THE MUNICIPAL COUNCIL ON THE OCCASION OF TABLING OF THE 2022/23 FINAL BUDGET**

#### **VISION**

Our vision is an economically sound municipality with effective infrastructure and a municipality that empowers people, protects the environment and demonstrates excellence in leadership.

In this tabled final budget Council has endeavoured to achieve these calls and has tried to provide for this within its limited resources. Given the constraints on the revenue side, tough decisions have been made to ensure a sustainable budget.

#### **JOB CREATION**

Council has heeded the Government's call for job creation and has partnered with the Department of Public Works to ensure that the EPWP is fully operational in this Municipality. The allocation for EPWP will decrease for 2022/23 financial year from R3.5 million to R2.8 million. The municipality is unfortunately not in a position to subsidise with the equitable share. Management will have to manage the contracting of workers accordingly.

#### **INFRASTRUCTURE DEVELOPMENT**

The total capital grant allocations for 2022/23 financial year have increased to R299 million. We will continue to upgrade our infrastructure and embark on new capital projects improve water distribution and reticulation. Various infrastructure projects that have been identified by the community during the needs analysis will be considered in this budget. A further allocation of R56,6 million was received from the Department of Human Settlements which will be channelled towards the damages suffered by the community during the floods.

#### **DEBT MANAGEMENT**

Council has written off debts for qualifying indigent debtors, a concerted effort has been made to collect and reduce all outstanding debts. Council has also approved the implementation of prepaid meters in order to improve the collection rate. Debt collection and revenue enhancement will remain a priority in the upcoming financial year. The municipality has employed recommendations from COGTA on the issue of revenue enhancement. Further to that debt collectors has been employed in order to assist with debt collection. We are anticipating an improvement in our collection rate.

#### **ASSET MANAGEMENT**

Asset management is prioritised and ensuring that councils assets are managed properly. We have responsibility of reducing expenditure on non-essential assets and prioritising repairs and maintenance of municipal assets. A certain percentage of the MIG will be allocated towards refurbishment of infrastructure.

## THE WAY FORWARD

The municipality will remain dedicated to its core business of providing high quality basic services to the community. All areas of non-performance affecting basic service delivery will be identified and remedial measures will be employed accordingly. The limited resources available will be prioritised strictly for basic service delivery.

## 1.2 COUNCIL RESOLUTIONS:

In May 2022 the Council of UThukela District Local Municipality met in the conference hall of Crown Hotel to consider the final annual budget of the municipality for the financial year 2022/23. The Council approved and adopted the following resolutions:

1. The UThukela District Local Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
  - 1.1. The annual final budget of the municipality for the financial year 2022/23 and the multi-year and single-year capital appropriations as set out in the following tables:
    - 1.1.1. Budgeted Financial Performance (revenue and expenditure by standard classification) as contained in Table A2
    - 1.1.2. Budgeted Financial Performance (revenue and expenditure by municipal vote) as contained in Table A3
    - 1.1.3. Budget Summary as contained in Table A1
    - 1.1.4. Budgeted financial performance (revenue and expenditure) as contained in Table A4
  - 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
    - 1.2.1. Budgeted Financial Position as contained in Table A6
    - 1.2.2. Budgeted Cash Flows as contained in Table A7
    - 1.2.3. Cash backed reserves and accumulated surplus reconciliation as contained in Table A8
    - 1.2.4. Asset management as contained in Table A9
    - 1.2.5. Basic service delivery measurement as contained in Table A10
2. The Council of UThukela District Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) to consider:
  - 2.1. The tariffs for water services for conventional and prepaid consumers
  - 2.2. The tariffs for sanitation services.
  - 2.3. The tariffs for other municipal services.

### 1.3 EXECUTIVE SUMMARY

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

In the compilation of this budget the municipality has taken note of the Cabinet resolution by which all national and provincial departments, constitutional institutions and all public entities are required to implement cost containment measures. These cost containment measures must be implemented to eliminate waste, reprioritise spending and ensure savings on six focus arrears namely consultancy fees, no credit cards, travel and related costs, advertising, catering and events costs as well as accommodation.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Most of which will benefit the municipality as well as consumers. Consultants have also been engaged in the revenue department to assist with the prior year's qualifying matters

National Treasury's MFMA Circular No.115 and 116 of 2021/2022 was used to guide the compilation of the 2022/23 final Budget and MTREF.

The main challenges experienced during the compilation of the 2022/23 MTREF can be summarised as follows:

- The on-going difficulties in the national and local economy;
- Including COVID 19 pandemic
- Aging water infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- The increased cost of bulk electricity (due to tariff increases from Eskom of 8.96%), which is placing upward pressure on service tariffs to residents. Continuous high tariff increases are not sustainable - as there will be point where services will no-longer be affordable;
- Escalating water losses
- Wage increases for municipal staff that continues to exceed consumer inflation, as well as the need to fill critical vacancies.

In view of the aforementioned, the following table is a consolidated overview of the proposed 2022/23 Medium-term Revenue and Expenditure Framework:

**Table 1 Consolidated Overview of the 2022/23 MTREF.**

	<u>2022/23</u>	<u>2023/24</u>	<u>2024/25</u>
<b>Total Revenue</b>	<b>-1 307 365 422</b>	<b>- 1 331 312 396</b>	<b>-1 417 877 759</b>
<b>Capital Expenditure</b>	<b>319 438 000</b>	<b>272 171 000</b>	<b>291 146 000</b>
<b>Operating Expenditure</b>	<b>862 301 000</b>	<b>890 165000</b>	<b>932 721 000</b>
<b>Operating Surplus</b>	<b>- 129 775 000</b>	<b>- 168 976 000</b>	<b>- 194 010 000</b>

### **Operating Revenue**

Total operating revenue has been increased by 6% for the 2022/23 financial year when compared to the 2020/2021 adjustments budget. The increase is due to the general percentage increase which is applied to service Charges tariffs and across all revenue generated by the municipality the same as the prior year. Tariffs have been increased by 6% however the increase in industrial tariffs is 8%. The 6% increase on consumer debtors has taken into account the numerous wards which are being charged at a flat rate.

### **Operating Expenditure**

Total operating expenditure for the 2022/23 financial year has been appropriated at R862 million which results in the budget having a surplus of R98 million apart from the mentioned expenditure.

### **Capital Expenditure**

R319,4 million is funding from national Government Grants for water and sanitation capital projects which are core functions of the municipality and a budget of R4.1 million from internally generated funds.

## **1.4 OPERATING REVENUE FRAMEWORK**

For UThukela District Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to achieve a 65% annual collection rate for key service charges;
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and tariff policies of the Municipality.

The two tables above shows that the municipality's main source of Revenue is grant funding as it covers more than above half of the income. Thus making the municipality grant reliant. Revenue from the main Service Charges has remained constant at 30% over MTREF

## UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

A total of R406,1 million is expected to be generated from Service charges, this revenue shows a 6% increase in tariffs across the board with the exception of industrial tariffs to be increased by

Furthermore , UTDM has also identified 108 vehicles from its fleet which will be auctioned in June the minimum asking price has been determined at 35% of the purchase price. the result of this may acquire UTDM R15.7 million if the the auction is a success.

Revenue increases by 3.9% and 3.9 %in the outer financial years respectively of the MTREF which is inline within the headline inflation rate.

Further in the consideration of applying the forecasted CPI of 4.4% and 4.5% for 2023/24 and 2024/25 respectively the municipality has considered the the draft budget review by treasury. Which suggested that our revenue was over estimated.

The water sale line item includes the projection relating to debtors which will be impacted by the introduction of prepaid water sales. This was also considered in the application of an increment for revenue of the outer years, in order to calculate reasonable projections.

Other revenue' contributes a very little percentage to total revenue. Other revenue consists of items and services that the municipality offers such as income received from the sale of tender documents and the issue of clearance certificates.

Operating grants and transfers totals R544 million in the 2022/23 below is a detailed split of the operating grants, this includes the operational portion of MIG of R28,6 million as per MSCOA regulations.

**Table 4 Operating Transfers and Grant Receipts**

<b>TOTAL EQUITABLE SHARE</b>	<b>539 912,00</b>	<b>578 248,00</b>	<b>618 980,00</b>
MUNICIPAL SYSTEM IMPROVEMENT	4 192,00	3 580,00	3 580,00
FMG	2 100,00	2 100,00	2 100,00
EPWP	2 881,00	-	-
SPATIAL FRAMEWORK DEV	-	-	-
<b>TOTAL OPERATING ALLOCATIONS</b>	<b>549 085,00</b>	<b>583 928,00</b>	<b>624 660,00</b>

A further amounts R28,6 million MIG allocation has been treated as operating transfers ,the top-slice and VIP toilets as these amounts are classified as operational in their nature.

The Municipal Systems Improvement Grant of R4,1 million has been treated as a grant in kind, therefore will be recognised as and when the grant is received.

#### **1.4.1 Water and Sanitation Tariffs**

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the Municipality.

In 2015 the District and the rest of the country experienced severe drought due to the heat and lack of rain which resulted to water shortages, the impact from that situation affected the municipality. The effects from the drought are still felt by the municipality as it affected the collection rate as water had to be shut down and distributed by water tankers. Municipality is still recovering from this situation and which has been further negatively impacted by the COVID 19 pandemic.

The core function of the municipality is water and sanitation which is considered to be the basic needs for human beings and the constitution says they are basic human rights. The municipality has a difficult task of setting tariffs which are affordable to all consumers and the same time must be cost reflective taking into account all cost associated with the end product.

National Treasury continues to encourage municipalities to keep increases in rates, tariffs and other charges as low as possible.

Discounting the impact of these price increases in lower consumer tariffs will erode the Municipality's future financial position and viability. As mentioned earlier services are failing to break even.

It must also be appreciated that the consumer price index, as measured by CPI, is not a good measure of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilized for the calculation of the CPI consist of items such as food, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, bulk purchases of electricity, petrol, diesel, chemicals etc. The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. Within this framework the Municipality has undertaken the tariff setting process relating to service charges as follows

Tariff the cost of the provision of general services. Determining the effective tariff is therefore an integral part of the municipality's budgeting process. The municipality has considered the percentage increase in the major cost drivers of providing services. Which are electricity increasing by 8.96% and the cost of labour by 4.96%. The 6% increase on tariffs is not cost reflective. However the municipality also considers the impact of covid-19 on the consumers expandable cash.

Below are the proposed water services tariffs for the financial year 2022/23 these tariffs exclude VAT. The Municipality has adopted a 6% increase on all tariffs and 8% increase on the industrial tariffs due to the fact that tariffs have not been cost reflective in the past and certain areas a minimum flat rate has been applied. The municipality is working towards phasing in more cost reflective tariffs however this cannot be achieved in a single financial year.

**Table 5 Water and Sanitation Tariffs**

**WATER & SANITATION SERVICES TARIFFS 2022/23 FINANCIAL YEAR**

	<b>Description</b>	<b>Tariff</b>
1.	Tariff for accessibility to water ( basic charge occupied and unoccupied)	R97.21/ month
2.	Tariff for accessibility to sewerage system (basic charge occupied and unoccupied)	R123.89month
3.	Sewer tariff for restricted usage (unmetered)	R123.89/ month

## 1.5 OPERATING EXPENDITURE FRAMEWORK

The Municipality's expenditure framework for the 2022/23 Budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit,
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA,
- The capital programmes aligned to the asset renewal strategy and backlog eradication plan,
- Operational gains and efficiencies will be directed to funding the capital budget and other core services, and
- Strict adherence to the principle of *no project plans no budget*. If there is no business plan no funding allocation can be made.
- Strict adherence to the principle of prioritising basic service delivery informed by circular 81

The following table is a high level summary of the 2022/23 budget and MTREF (classified per main type of operating expenditure):

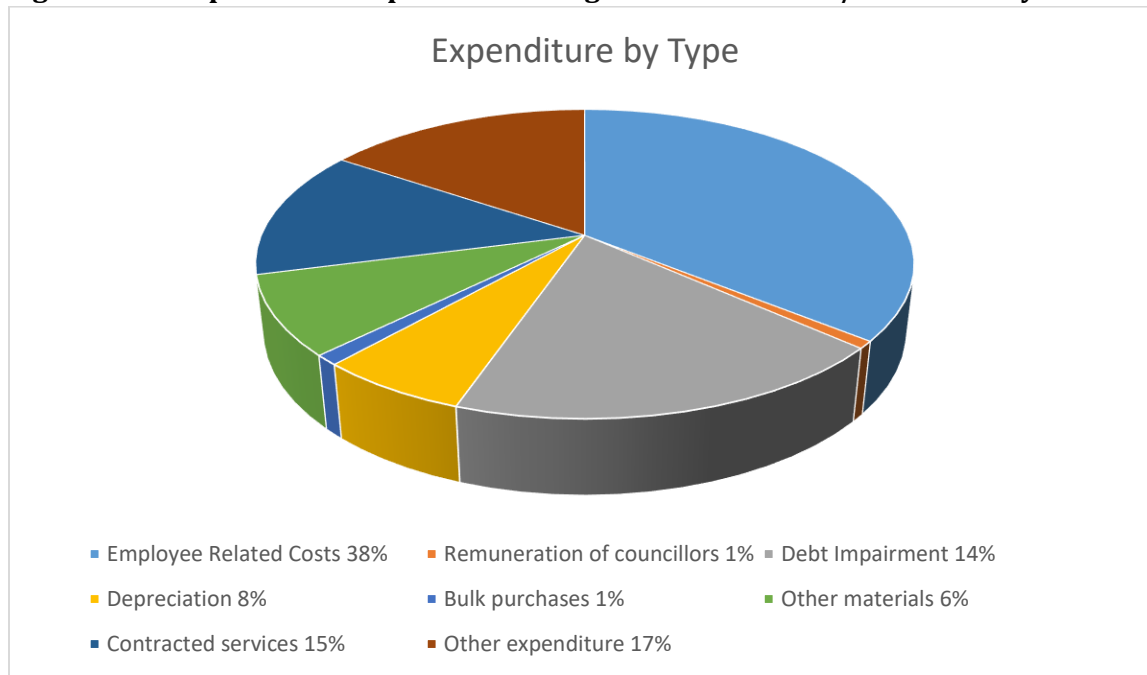

**Table 7 Summary of operating expenditure by standard classification item A4**

**Figure 1 Main operational expenditure categories for the 2022/23 financial year**

### Employee related cost

The budgeted allocation for employee related costs for the 2022/23 financial year totals R355 million, which equals 38% of the total operating expenditure. Which is below the norm of 40%. The salaries have not been increased by 4,96% as per SALGA agreement.

The municipality has been very strict in budgeting for overtime and standby, the budget has been strictly set at R0 million. The budgeted amount is below the industry norm of 5% of employee related costs.

### **Remuneration of Councillors**

The cost associated with the remuneration of councillors is determined by the Minister of Cooperative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Municipality's budget. The budget of R7 million is as per gazette.

### **Debt Impairment**

The cost of debt impairment is considered to be a non-cash flow item; it is informed by the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues.

The municipality has implemented the installation of prepaid water meters which, will improve the recoverability of service charges. The past few audited financial years has shown a trend of nearly 20% increase of consumer debtors, this trend is expected to decline.

### **Provision for depreciation and asset impairment**

Depreciation has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the asset consumption. Budget appropriations in this regard total 76.5 million for the 2022/23 financial and equates to 8% of the total operating expenditure. Calculations for the provision as follows:

UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

With the assumption that only 60% of the capital budget is capitalised and added to asset register, the same method is used to calculate the estimation for the additional new assets. The

## UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

municipality will incur reduced asset impairment related to vehicles, the municipality is looking into auctioning vehicles and lease vehicle for water services.

### Other materials

Repairs and maintenance were previously reported on this item but due to the changes that came with mSCOA data strings the following items are now classified as inventory consumed.

**Table 10 Other Materials**

Segment Desc	2023 Final Budget	2024 Final Budget	2025 Final Budget
Fuel & Oil. (510/260180)	17 000 000	17 236 300	17 908 516

	<b>61 387 975</b>	<b>63 480 207</b>	<b>66 080 733</b>

A further budget of R10 million for bulk purchases relating to water is also classied as inventory. It must be noted that the mSCOA tree only has classification for bulk purchases relating to electricity.

### Contracted services

mSCOA classifications of expenditure type have changed which has given a move of all items that are outsourced to contracted services. Some of the items such as repairs and maintenance, water tankers, operational grants expenditure have now form part of contracted services. Chemicals, insurance and computer programs no longer part of contracted services.

An amount of R2.6 million for rural roads has also been included in contracted services as well as an amount of R2.8 million for EPWP

In the next financial year the municipality will aim at decreasing the contracted costs associated with the repairs to pumps and pipelines, by implementing capital projects related to the refurbishment of aging infrastructure.

The cost related to water tanker hiring is specifically related to water tankers dispatched to the department of education.

	<b>146 924 494</b>	<b>152 538 023</b>	<b>158 370 193</b>

To minimise the cost of day to day operating expenses the municipality has put control measures such as that the staff has to pay for their private calls and this has resulted in decline in telephone expenses.

Electricity is expected to increase by 8.96% as per proposed tariffs by Eskom.

Operational expenditure further includes a budgeted amount of R15 million for the provision of free basic services to the indigent.

In terms of the MFMA circular No.55 general expenditure should not exceed 10% of other expenditure however it must be noted the budget for electricity is R90 million due to the high electricity usage in the water treatment plants. This electricity has been correctly classified as other expenditure. It cannot be classified as bulk as electricity is not a trading service for the municipality.

Banka charges cannot be classified as finance charges, the mScoa segments relating to bank finance charges are specifically for borrowings. The mScoa tree allocates bank charges to operational expenditure.

Travel Councillors own transport (100/260534)	9 335	9 699	10 077
	<b>1 568 826</b>	<b>1 700 210</b>	<b>1 836 719</b>

As can be depicted above the departments with excessive substance and travel expenditure are Health services and water services. The general managers from the said departments have been advised to investigate and authenticate this expenditure item. The municipality expects to have reasonable figures by the end of the of the 2021/22 financial year, a reduction in this expenditure item will yield a positive impact on the next adjustments budget.

#### 1.5.1 Priority given to repairs and maintenance

Aligned to the priority being given to preserving and maintaining the Municipality's current infrastructure, the 2022/23 budget provides for in the area of asset maintenance, as informed by the asset renewal strategy and repairs and maintenance plan of the Municipality.

The following table lists the total anticipated cost for repairs and maintenance on infrastructure and assets for the year 2022/23 . It must be noted that the municipality has identified all the shortcomings associated with neglecting capital assets such as infrastructure thus the increased provision for repairing and maintenance of capital assets.

# UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

**Table 12.1 Repairs and maintenance per asset class SA34c**

Segment Desc	2023 Final Budget	2024 Final Budget	2025 Final Budget
Electrical (510/255045)	271 702	282 298	293 308
Maintenance of buildings and facilities (200/235011)	550 000	571 450	561 355
Vehicle Repairs Outsourced. (510/235080)	12 000 000	5 000 000	5 000 000
Contractors:Medical Services	200 000	207 800	215 904
	13 021 702	6 061 548	6 070 568

a portion of the MIG has been set aside specifically for the renewal and refurbishment of assets. It must further be noted that extensive refurbishment costs were incurred in the 2021/2022 financial year. The repairs to pumps and pipelines form one of the major cost drivers as identified in the budget funding plan.

The water services department will employ a planned maintenance plan in order to prevent emergency repairs which often result in excessive expenditure.

**Table 12.2 Repairs and maintenance per asset class SA34c**

Projects Name	Local Municipality	Funder	Budget		Total Budget 2023	Total Budget 2024	Total Budget 2025	Progress	New/ongoing

The EPWP grant has also been decated towards contracting employees who be responsible for to theGeneral Water/Sewer and Reticulation

Due to insufficient funds the municipality cannot meet the recommended norm of 8% of PPE.

### **1.5.2 Free Basic Services: Basic Social Services Package**

The social package assists households that are poor or face other circumstances that limit their ability to pay for services. To receive these free services the households are required to register in terms of the Municipality's Indigent Policy.

In the 2022/23 financial year it is anticipated that R15 million will be allocated towards the provision of free basic services.

The cost of the social package of the registered indigent households is largely financed by national government through the local government equitable share received in terms of the annual Division of Revenue Act.

## 1.6 CAPITAL EXPENDITURE

The following table reflects a breakdown of budgeted capital expenditure by vote:

## UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

Due to financial constraints the capital budget is focused mainly on water infrastructure which is funded by national government grants amounting to R264 million. A grant of R51,6 million has been allocated to the district by the Department of Human Settlements out of consideration the damages suffered by the community uThukela district during the floods.

Further amounts have been budget internally for vehicles to the value of R3 million and R500 thousand for computer hardware and R650 thousand for furniture.

**Table 14 Infrastructure Grants**

## 1.7 ANNUAL BUDGET TABLES

The following eighteen pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2022/23 final budget and MTREF as approved by the Council.

### **Table 15 MBRR Table A1 - Budget Summary** *A Schedule Attachment*

1. Table A1 is a budget summary and provides a concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasise the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
  - a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF
  - b. Capital expenditure is balanced by capital funding sources, of which
    - i. Transfers recognised are reflected on the Financial Performance Budget;
    - ii. Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
4. Over the MTREF there is progressive improvement in the level of cash-backing of obligations
5. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the public. The amount of services provided by the municipality including free basic services continues to increase.

**Table 16 MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)**  
***ASchedule attachment***

**Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)**

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
2. Note the Total Revenue on this table includes capital revenues (Transfers recognised – capital) and so does not balance to the operating revenue shown on Table A4.

**Table 17 MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)**  
***A Schedule Attachment***

***Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)***

*Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality.*

**Table 18 MBRR Table A4 - Budgeted Financial Performance (revenue and expenditure by municipal vote)**

<b>Description</b>	<b>Year 1</b>	<b>Year 2</b>	<b>Year 3</b>

<b>Total Expenditure</b>	<b>862 301</b>	<b>890 165</b>	<b>932 721</b>

**Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)**

1. Total operating revenue is R992million in 2022/23 and increases to over a billion (R1 billion and R65 million) by 202/2024. However given sound financial management strategies are put in place we can expect an increase in revenues exceeding 6%
2. Total operating expenditure is R862 million in 2022/23 and escalates to R932 million by 202/2024. However given sound financial management strategies are put in place we can
3. It must be noted that the municipality has budgeted for a surplus over the MTERF, which increases steadily.

**Explanatory notes to Table A5- Budgeted Capital Expenditure**

The capital budget for water and sanitation infrastructure is fully grant funded the municipality has budgeted R315 million towards water and sanitation infrastructure, for the 2022/23 financial year.

**Table 20 MBRR Table A6 - Budgeted Financial Position**

***A Schedule Attachment***

**Explanatory notes to Table A6 - Budgeted Financial Position**

1. Table A6 is consistent with international standards of good financial management practice, and improves understand-ability for councillors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. This table is supported by an extensive table of notes (SA3)providing a detailed analysis of the major components of a number of items, including:
  - Call investments deposits;
  - Consumer debtors;
  - Property, plant and equipment;
  - Trade and other payables;
  - Non-current Provisions;
  - Changes in net assets; and
  - Reserves
4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
5. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

**Explanatory notes to Table A7 - Budgeted Cash Flow Statement**

- Table A7 details the cash flow of the municipality and is one of the plays a pivotal role in measuring the funding of the budget.

- It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.
- 2022/23 adjustment cash flow estimated that the municipality will have R242 million at year end.
- the applied collection rate of 65% is maintained through out the year. As well as the cost containment measures are applied effectively as detailed in the recovery plan.

The following strategies will be implemented in order to improve the collection of revenue

1. *Improved meter reading through staff rotation and close monitoring, this will get us very close to getting all that we billed for, in revenue collected*
  2. *Obtain 24 EPWP support workers and 5 motor vehicles will enable us to run disconnection district wide consistently every month. Currently, we are using a team of 10 employees to disconnect in order to collect monies owed to our municipality. Two vehicles will be received from Mr. Mthi on Friday, 20.05.2022 and that is greatly appreciated.*
  3. *Exercising control over all staff and observing the protocol within the section will pave a position contribution towards unity in revenue, thus enhanced revenue collection.*
  4. *sourcing key resources and tools of trade. The (PPE) uniform, motor vehicles, etc. This motivates employees and have nothing else left to complain about.*
  5. *Prepaid metering will also contribute positively towards enhanced revenue collections*
  6. *the above facilities and tools in place we intend disconnecting water supply from non-payers as from day 01 till the last day of the month.*
- All operating expenditure budgeted on table A4 has been budgeted to be settled in 2022/23.
  - Payment to creditors and suppliers includes an amount of R45,6 million which is budgeted to settle old debts per approved payment plans and further payments outstanding over 30 days. The total payments as projected on the statement of financial position are fully payable within the 2022/23 financial year.

- An amount of R46 million will be channeled towards settling old debt in the 2023 financial year.
- The payments for 2024 and 2025 also include an amount of R46 million for the long term payment for UMngeni and DWA plans

<b>Total Application of cash and investments:</b>	<b>168 537</b>	<b>174 071</b>	<b>180 860</b>
<b>Surplus(shortfall)</b>	<b>73 412</b>	<b>222 000</b>	<b>437 484</b>

**Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation**

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.

3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. From the table it can be seen that for the period 2022/23 the budget will be funded with a surplus of R73.4million
6. the municipality acknowledges that achieving a healthy financial position means having an other working capital of greater than 1. The municipality aims to have an improved working capital position after the first year of the MTERF.
7. It must also be noted that the municipality has enforced measures to encourage employees to utilise leave days earned. This will also have a positive impact on the employee benefit obligation provision.

***Table 23 MBRR -Table A9 Asset Management  
ASchedule attachment***

**Explanatory notes to Table A9 - Asset Management**

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
2. The Municipality has committed to the renewal and repairs and maintenance of existing capital assets. The cost saving that will be gained from maintaining existing assets will be employed in future capital projects

## **PART 2 – SUPPORTING DOCUMENTATION**

### **2.1. OVER VIEW OF THE BUDGETPROCESS**

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the MMC for Finance.

The primary aim of the Budget Steering Committee is to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality's IDP and the budget, taking into account the need to protect the financial sustainability of the municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- That the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

#### **2.1.1 Budget Process Overview**

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in July 2021) a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled in Council the required the IDP and budget time schedule in August 2021, Key dates applicable to the process were as follows:

**Table24 Key dates applicable to the process were as follows:**

## **2.2 OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH IDP**

### **2.2.1 ROLE PLAYERS**

- **National Linkages**

The national sphere should at least provide a framework for the preparation of the sectoral Plans, and where possible funding be accessed. This will contribute to the creation of a normative framework and consistency between municipalities.

The national sphere should also co-ordinate and prioritizes programmes and budgets between sectors and the national sphere in line with the framework.

- **Provincial Level**

As with the National Government, Provincial Government district programmes also need to be coordinated and aligned. should prepare sectoral guidelines and funding analysis (Business Plans) for the preparation of these plans. The preparation of the sectoral Plans and programmes and

### **2.2.2 KEY STAGES OF ALIGNMENT BETWEEN UTHUKELA DISTRICT MUNICIPALITY AND ITS FAMILY OF MUNICIPALITIES**

Alignment meetings will take place on a quarterly basis through the IDP Supporting structure Committee that is formed by the IDP Managers of all Local Municipalities, representative from COGTA and is chaired by the District IDP Manager. It ensures that the IDP process is carried out in a holistic manner, interaction between the district and locals is essential as well as the alignment Should a need arise for more of these meetings, local municipalities and the district municipality will have to come to consensus on suitable dates.

### **2.2.3 PARTICIPATING LOCAL MUNICIPALITIES**

The uThukela district municipality consists of three local municipalities, which are:

- Alfred Duma Local Municipality
- Inkosi Langalibalele Local Municipality
- Okhahlamba Local Municipality

The FINAL IDP Framework and Process Plan have been circulated to all local municipalities and COGTA for their inputs before its adoption.

## **2.2.4 MONITORING OF THE PROCESS PLAN**

Alignment is the instrument that synthesis and integrates the top-down and the bottom-up planning process between different spheres of government. Not only alignment between the district and the local municipalities is important, but also between the local municipalities within the jurisdiction of the district municipality. The alignment procedures and mechanisms should be incorporated in the process plans of the local municipalities, while the responsibility for alignment rests with the district municipality.

In order to facilitate the above, frequent IDP alignment meetings will be rotational in all local municipalities, chaired and convened by the District. The secretariat function will be performed by the hosting municipality and verified by the district IDP Manager before its circulation to all members of the family. Coordination meetings have been scheduled as well as alignment workshops as stipulated in the Activity programme.

IDP Manager is required to submit a written report at each meeting, indicating progress and deviations from the Framework and Process plan, as well as the recommended action to address the deviation. The members at the meeting will assess the deviation and recommend necessary amendments to the Process Plan to the individual Steering Committees, which will make a decision as to whether the matter needs to be endorsed by the Executive Committee of the relevant Municipality.

## **2.2.5 PROCEDURES FOR DEVIATION**

In terms of the Municipal Systems Act of 2000, the district and local municipalities must determine procedures to effect amendments to the Framework Plan. In order to amend the Framework Plan, amendments should be tabled at the IDP Supporting structure Committee meeting. The Committee will evaluate the changes and recommend such amendments to the individual Steering Committees. The IDP Steering Committee may recommend that changes be presented to Council in order to formally amend the Framework Plan

The national and provincial priorities, policies and strategies of importance include amongst others:

- Green Paper on National Strategic Planning of 2009;
- Government Programme of Action;
- Development Facilitation Act of 1995;
- Provincial Growth and Development Strategy (GGDS);
- National and Provincial spatial development perspectives;
- Relevant sector plans such as transportation, legislation and policy;

- National Key Performance Indicators (NKPIs);
- Accelerated and Shared Growth Initiative (ASGISA);
- National Spatial Development Perspective (NSDP) and
- The National Priority Outcomes.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP.

**Table 25.1 IDP Goals Objectives and Strategies**

**Table SA4 Reconciliation of IDP strategic objectives and budget (revenue)**

***ASchedule attachment***

**Table 25.2 IDP Goals Objectives and Strategies**

**Table SA5 Reconciliation of IDP strategic objectives and budget (operating expenditure)**

***ASchedule attachment***

The 2022/23 MTREF has therefore been directly informed by the IDP revision process and the above tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

## **2.3 OVER VIEW OF BUDGET RELATED POLICIES**

### **2.3.1. Budget Policy**

The objective of this policy is to set out the budgeting principles which the Municipality will follow in preparing each annual budget, as well as the responsibilities of the Chief Financial Officer in compiling such budget.

### **2.3.2 Credit Control and Debt Collection Policy**

- The Council of the municipality, in adopting this policy on credit control and debt collection, recognises its constitutional obligations to develop the local economy and to provide acceptable services to its residents. It simultaneously acknowledges that it cannot fulfil these constitutional obligations unless it exacts payment for the services which it provides and for the taxes which it legitimately levies – in full from those residents who can afford to pay, and in accordance with its indigency relief measures for those who have registered as indigents in terms of the Council's approved indigent management policy.

### **2.3.3 Indigent Support Policy**

- Indigents, whose level of income is less than the amount determined by Council as qualifying for indigent support, may apply in writing to the Council for such support.
- Owners or occupiers who apply for such support shall be required to apply annually, in writing, for such support on the prescribed form.
- Only registered residential consumers of services delivered by Municipality qualify for support.
- A consumer conducting a business on a residential property, with or without special consent from the Council, shall qualify for assistance.
- Support in terms of this policy only be provided to owners or residents who occupy the premises.
- Applications for support must be made during March of each year and will apply from the first of the month following the month application and will continue for 12 months. Should further support be required a new application must be lodged.

#### **2.3.4 Supply Chain Management Policy**

The principal objective of the policy is to provide, promote and implement, theoretical guidelines, governing processes and procedures within the supply chain management when

- 1) Procuring goods or services;
- 2) Disposal of goods, assets and immovable property no longer needed;
- 3) Selecting contractors to provide assistance in the provision of municipal services other than that where Chapter 8 of the Municipal Systems Act applies.

#### **2.3.5. Virements Policy**

This policy applies only to transfers between line items within votes of the Municipality's operating budget.

Section 28(2) (d) read together with section 69 of the MFMA provides that *"An adjustments budget...may authorise the utilisation of projected savings in one vote towards spending in another vote."* Transfers between votes may therefore be authorised only by the Council of the Municipality.

For ease of reference, the definition of "vote" as contained in Section 1 of the MFMA is set out hereunder:

*"Vote means –*

- (a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and*
- (b) Which specifies the total amount that is appropriated for the purposes of the department or functional area concerned."*

This policy shall not apply to transfers between or from capital projects or items and no such transfers may be performed under this policy.

Any deviation from or adjustment to an annual budget or transfer within a budget which is not specifically permitted under this policy or any other policy may not be performed unless approved by the Council through an adjustment budget.

#### **2.3.6. Tariff Policy**

In terms of Section 62 (1) of the Municipal Finance Management Act (MFMA) the Accounting Officer of a Municipality is responsible for managing the financial administration of the municipality and, in terms of S62 (1) (f), must for this purpose take all reasonable steps to ensure – "that the municipality has and implements a tariff policy referred to in Section 74 of the Municipal Systems Act" (MSA).

In giving effect to S74 (1) of the Municipal Systems Act, the municipality adopts this policy as the as the framework for determining tariffs.

### **2.3.7. Petty Cash Policy**

The objectives of the policy are to:

- 2.3.7.1 Ensure goods and services are procured by the municipality in accordance authorized processes only.
- 2.3.7.2 Ensure that the municipality has and maintains an effective petty cash system Expenditure control.
- 2.3.7.3 Ensure that sufficient petty cash is available when required
- 2.3.7.4 Ensure that the items required to be procured are approved petty cash items.

***All policies highlighted above have been attached to the budget for further reference. The comprehensive list of policies approved is as follows:***

*Budget policy  
Credit control policy  
Bad debt & write off policy  
Budget funding and reserves policy  
Cash management and investment policy  
Contract management policy  
Supplier performance monitoring policy  
Expenditure management policy  
Inventory policy  
Cost containment policy  
Virements policy  
SCM policy  
Petty cash policy  
Assets Management policy  
Indigent Policy  
HR policy  
Overtime and standby policy*

## **2.4 OVER VIEW OF BUDGET ASSUMPTIONS**

- The 2022/23 budget assumes the following:
  - CPI inflation rate forecast 4% for 2022/23
  - Tariffs have been increased by 6% however the increase in industrial tariffs is 8%.
  - Collection rate estimated at 65% of service charges.
  - Employee related costs will increase by 4.96%
  - 60% of the capital budget is capitalised and added to the Asset register.

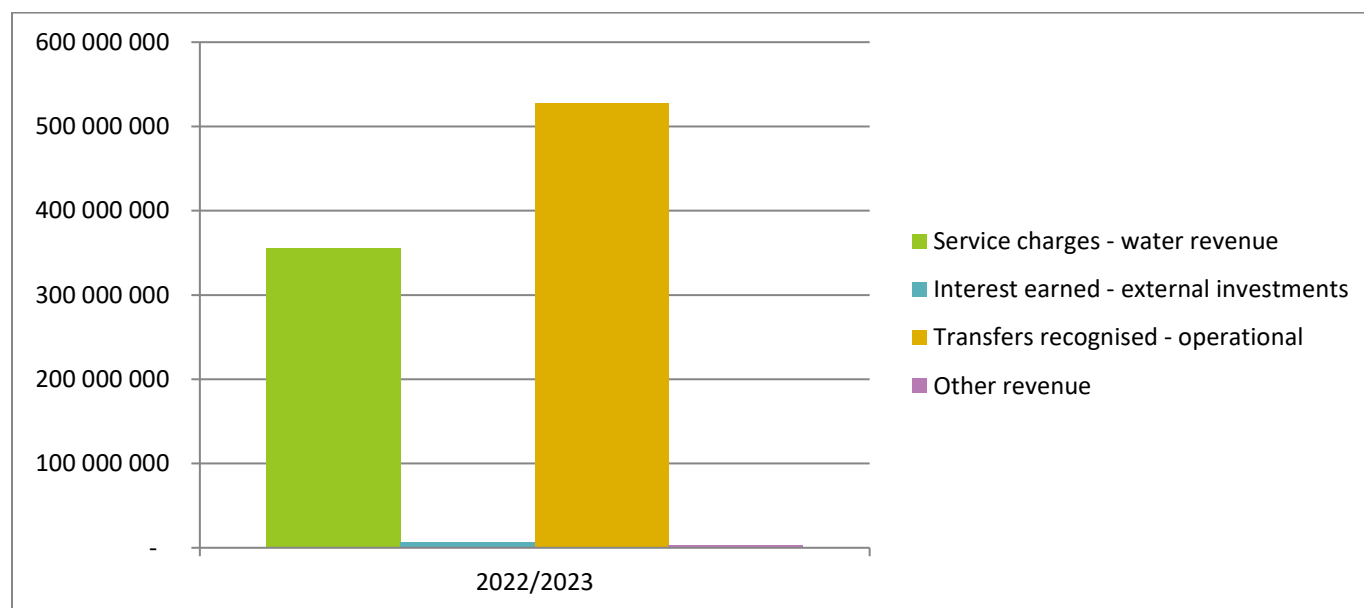

## 2.5 OVERVIEW OF BUDGET FUNDING

### 2.5.1 Medium-term outlook: operating revenue

**Table 26 Breakdown of the operating revenue over the medium-term**

Item	2023 Final Budget	2024 Final Budget	2025 Final Budget
Interest Investments (300/025002)	6 463 092	7 153 997	7 433 002

Local Government Financial Management Grant	2 100 000	2 100 000	2 100 000
Municipal Infrastructure Grant	211 484 000	221 371 000	231 890 000
Rural Road Asset Management Systems Grant	2 662 000	2 672 000	2 769 000
Human Settlements	51 600 000		
National Revenue Fund:Equitable Share	539 912 000	578 248 000	618 980 000
	<b>1 266 365 422</b>	<b>1 280 402 339</b>	<b>1 356 172 464</b>

The following graph is a breakdown of the operational revenue per main category for the 2022/23 financial year.

**Figure 2 Breakdown of operating revenue over the 2022/23 MTREF**

Tariff setting plays a major role in ensuring desired levels of revenue. Getting tariffs right assists in the compilation of a credible and funded budget. The Municipality derives 31% of its operational revenue from the provision of and services such as water and sanitation.

The above graph demonstrates that the major part of the municipality revenue is derived from operating grants making up more than 50% of the revenue basket.

The revenue strategy is a function of key components such as:

- Growth in the municipality and economic development
- Revenue management and enhancement
- Achievement of a 50% and above annual collection rate for consumer revenue
- National Treasury guidelines
- Water tariff increases by DWA and ESKOM
- Achievement of full cost recovery of specific user charges
- Determining tariff escalation rate by establishing/calculating revenue requirements
- And the ability to extend new services and obtain cost recovery levels

The above principles guide the annual increase in the tariffs charged to the consumers and are aligned to the economic forecasts.

Revenue relating to water and sanitation will total R365 million for the 2022/23 financial year with water service charges increasing to R394 by 2023/2024. These constitute 31 % of the total budget.

Operational grants and subsidies amount to R573 million in the 2022/23 financial year. This contributes above 50% of the total budgeted revenue.

The tables below provide detail investment particulars by maturity and bank balance information. The balances below are as at March 2022.

**Table 27 MBRR SA15 – Detail Investment particulars by maturity**

## 2.7. LEGISLATION COMPLIANCE STATUS

Compliance with the MFMA implementation requirements have been substantially adhered to through the following activities:

### **1. In- year reporting**

Section S71 Reporting to National Treasury in electronic format was fully complied with on a monthly basis.

### **2. Internship programme**

The Municipality is participating in the Municipal Financial Management Internship programme and has employed 5 interns that have undergone training in various divisions of the Budget and Treasury Services Department.

### **3. Budget and Treasury Office**

The Budget and Treasury Office has been established in accordance with the MFMA.

### **4. Audit Committee**

An Audit Committee has been established and is fully functional.

### **5. Budget Steering Committee**

A Budget Steering Committee has been established and is fully functional

### **6. Service Delivery and Implementation Plan**

The detailed final SDBIP document will compiled and submitted to the relevant departments after approval of the 2022/23MTREF and will be directly aligned and informed by the 2022/23 MTREF.

### **7. Annual Report**

Annual report is compiled in terms of the MFMA and National Treasury requirements.

### **8. Policies**

Budget related policies are reviewed on an annual basis.

### **9. MScoa compliance**

The municipality is Mscoa compliant, an Mscoa committee has been established as well as an implementation plan put in place. Mscoa risks are reviewed regularly.

UTHUKELA DISTRICT MUNICIPALITY FINAL BUDGET 2022/2023

Standard	Description	Service Level
