#### 1.1. Mayor's Report

UThukela District Municipality has seen great challenges in the 2021/22 financial year and remains under administration in terms of S139 of the MFMA. The national pandemic has further negatively impacted negatively on the financial and social well-being of the district as a whole. Consequentially service delivery has thus been affected. Political leadership changed during the month of November 2021, the new elected council will respond positively to the said challenges and will continue to support government interventions.

The budget remains unfunded and would be supported by means of a budget funding plan. Senior management has been advised to contribute to the funding plan.

The various capital projects budgeted for this financial year have commenced, going forward these projects will be under the strict monitoring and supervision of the new council.

All issues previously identified and highlighted in the S72 midyear report, have been considered for the review of the approved budget. This review will be aimed at improving our cash position and facilitate the improvement in cash flow constraints.

Water and sanitation charges have been decreased by a combined 15% based on the actuals realised at midyear, this decrease has impacted negatively on the funding position. The municipality has initiated the implementation of smart meters as part of the revenue turnaround strategy in order to improve revenue generation.

It must be noted that an amount of R 364 million has been received from the budgeted total of R485 million of the equitable share and an amount of R104 million has been received in respect of the MIG (municipal infrastructure grant), further to that an amount of R47 million relating to the same grant was received. in respect of MWSIG (municipal water services infrastructure grant) R55 million was received.

#### 1.2 Council Resolutions

#### On 27 February 2023

the Council of UThukela District Municipality met in the board room of UThukela District Municipality to consider the adjustments budget of the municipality for the financial year 2022/23. The Council approved and adopted the following resolutions:

- 1. The UThukela District Local Municipality, acting in terms of section 72 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
- 1.1. The adjustments budget of the municipality for the financial year 2022/23 and the multi-year and single-year capital appropriations as set out in the following tables:
- 1.1.1. Adjustments Budget Financial Performance (revenue and expenditure by standard classification) as contained in Table B2

- 1.1.2. Adjustments Budget Financial Performance (revenue and expenditure by municipal vote) as contained in Table B3
- 1.1.3. Adjustments Budget Summary as contained in Table B1
- 1.1.4. Adjustments Budget financial performance (revenue and expenditure) as contained in Table B4
- 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
- 1.2.1. Adjustments Budget Financial Position as contained in Table B6
- 1.2.2. Adjustments Budget Cash Flows as contained in Table B7
- 1.2.3. Adjustments Budget Cash backed reserves and accumulated surplus reconciliation as contained in Table A8
- 1.2.4. Adjustments Budget Asset management as contained in Table B9
- 1.2.5. Adjustments Budget Basic service delivery measurement as contained in Table B10

#### 1.3 Executive Summary

Section 72 of the Municipal Finance Management Act (MFMA) requires that municipalities review their financial results for the mid-year during January of each year

Section 72 indicates that the following information must be provided:

- the monthly statements referred to in section 71 for the first half of the financial year;
- the municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- the past year's annual report, and progress on resolving problems identified in the annual report

As part of the review the accounting officer must:

- make recommendations as to whether an adjustment budget is necessary and
- recommend revised projections for revenue and expenditure to the extent that this may be necessary

#### Background

An Adjustment Budget must be table to council any time after the mid-year budget review have been tabled to council but no later than 28 February of the current year as per Municipal Budget Regulation Reporting 23(1).

The Mid- Year Budget Review Report has highlighted variances in terms of actual year to date income and expenditure versus year to date budgets. The variances were considered and where necessary adjustments were made.

Consideration of section 18 of MFMA was made, which states that:

"An annual budget may only be funded from:

a) Realistic anticipated revenues to be collected;

*b)* Cash backed accumulated funds from previous year's surpluses not committed for other purposes; and

*c)* borrowed funds, but only for the capital budget referred to in section 17(2)

(2) Revenue projections in the budget must be realistic, taking into account:

- a) Projected revenue for the current year based on collection levels to date; and
- b) Actual revenue collected in previous financial years."

Great emphasis has placed in ensuring that the budget the available resources are employed onto the municipality's core function; further more adjustments have been made to votes impacting directly on service delivery.

#### Summary of Adjusted Revenue Classified by Main Revenue Source [B4]

After the midyear review and the relevant feedback comments from treasury it was noted that a few adjustments to operating revenue and expenditure were required. Below is the discussion pertaining to the adjusted items.

#### WATER& SANITATION SALES:

Water and sanitation charges have been decreased from the original budget estimate which was overestimated. The newly computed billing figure of R250 million based on the actual billing figures at midyear was in line with the approved budget funding plan. No adjustments were necessary.

The municipality has assessed the water and sanitation sales for potential increases which would improve the generation of income. The estimated water and sanitation sales do not include the customer rebates granted during the first half of the year. These rebates have also negatively impacted the revenue recognised. The municipality also noted the impact of cuts in water supply on the sales generated, the consistency and improvement in water supply has been prioritised which will positively impact future water and sanitation sales.

#### **INTEREST FROM INVESTMENTS:**

The municipality has been unable to increase the investment of funds as per the budget funding plan, this is due to the fact that investments have been used in the settling of older debt which still weighs heavily on the municipality. The projection of interest earned from investments has been decreased by R491 million.

Unspent grants at mid-year were fully cash backed, the municipality has ensured to set aside investments pertaining to grants. This will prevent the misallocation of funds, and ensure the approval of any possible roll-overs.

#### TRANSFERS AND SUBSIDIES:

Transfers and Subsidies have been reduced by R12 million due to the unapproved rollovers. In December 2022 an amount of R12 million was withheld from the equitable share. The reduction in the equitable share has impacted negatively on the cash inflow and budget funding plan. A further R24 million of the Municipal Infrastructure Grant will be classified as an operating transfer, a contribution towards VIP toilets.

Transfers and Subsidies made up, 63% of the revenue basket. An indication that the municipality is grant reliant. The cut in revenue (equitable share) will need to be supported by an importunate revenue drive. The Revenue Section remains a priority within the department, furthermore there is additional support that has been provided by National Treasury by means of consultants.

#### FINES AND PENALTIES:

This line item relates specifically to fines issued by the Health department, the municipality has been unable to budget accurately for this line item in the past. The department has been requested to look into this line item as an additional revenue source for the upcoming 2024 draft budget. The municipality may have to allocate additional resources for the maximum recovery of fines.

#### **OTHER REVENUE:**

Other revenue has been increased by R31.8 million, this adjustment is due to the VAT income refunds that were claimed during the course of the year. The adjustment is based on the projection of VAT income recovered at midyear. The municipality has been conservative in the estimation based on the recovered amount at midyear. The municipality has however been able to recover amounts well over R70 million in the prior years. The municipality has also appointed VAT auditors who will ensure the maximum recovery of this revenue source.

| Total Expenditure                 | 885 604                                    | 939 465                       | 53 861      |

#### **EMPLOYEE REALATED COSTS:**

Employee related cost, has been adjusted by an amount of R7.3 million an adjustment which was approved on compilation of the budget funding plan. Cost saving have been achieved through the strict reduction of overtime, as per the approved budget funding plan.

#### **INVENTORY CONSUMED:**

The total incremental adjustment to inventory consumed is R10 million. The municipality has managed to achieve reduction in costs relating to fuel and oil, due to the improved controls in fleet management. The budget for chemicals has also been reduced the municipality has reviewed related contracts in order to gain competitive prices. The budget for water purchases has been reduced, based on the accumulated expenditure at midyear.

#### **CONTRACTED SERVICES:**

Contracted services have been increased by R49 million, this increase in services includes the following amongst other expenditure.

- ➢ Security R5 million
- > VAT Audit Expenses R1 million
- > Outsourced Transport Hire R200 thousand
- > VIP Toilets R24.2 million
- Water Tanker Hiring R15 million

The municipality has prioritised the review of contracts, this has been prioritised as the primary cost saving strategy of our budget funding plan. The VAT Audit has been outsourced and was not previously budget for in the original budget, at midyear VAT income of R14 million had been recovered. The municipality had previously

budget to purchase vehicles, a later evaluation proved that the budget was not sufficient to purchase the immediate required number of vehicles, the budget has then been moved to cover the hiring thereof. The adjustment to VIP toilets is grant related and is a capital shift of funds within the MIG grant.

The capital budget was mainly affected by the reprioritisation of capital projects funded by infrastructure grants. Below are the capital projects listed per grant. An additional budget of R800 thousand was added for the purchase of vehicles for the revenue department which will be utilised for by the disconnection teams.

The amount anticipated to be collected from service charges has also been reviewed in light of amounts collected as at the end of the second quarter. A collection rate of 48% has been applied to the projected water and sanitation sales as per our past three-month average collection rate. We are very optimistic that at year end this collection will have improved owing to the appointment of debt collectors and tightened internal controls relating to disconnections.

The total anticipated payments are R740 million, which includes the payments to uMngeni Water of R20 million as per payment plan, as well as the R600 thousand per month for the payment arrangement with DWA and R10 million for other expenditure.

B8 further emphasises that our budget is unfunded to the extent of a R407million deficit an increase from the budget funding plan which projected an unfunded position of R401 million.

Statutory requirements of R42.6 million is the provision for VAT payable. A further provision for unspent grant funding at year end of R12.5 million based on the unspent funds of the previous financial year. The municipality does anticipate to full spend all conditional grants in the current financial year.

# 2.1 Adjustments to budget funding:

Revenue
